

# Environment Policy

The management of Edge Drilling (WA) are committed to managing and undertaking design, manufacturing, installation and operations in an environmentally responsible manner. We are committed to provide practical environmental care and strive to ensure all negative environmental impacts are avoided or mitigated.

The ability to maintain responsible environmental practice through the use of ethical principles is an essential part of the quality of Edge Drilling (WA)'s workmanship.

This includes:

Conducting operations in compliance with local environmental legislation regulations and licenses.

Setting goals and reviewing environmental objectives and performance.

Preventing pollution and achieving continual improvement of environmental performance.

Communication of our environmental policy with the team, contractors, clients and the community.

Education of team members and contractors to ensure environmental responsibility is integrated into work practices, training, and decision-making.

Using resources efficiently and minimizing wastes and emissions. .

Environmental management is the responsibility of everyone and this can be best achieved through cooperative efforts of employees.

The success of this environmental policy relies on environmental awareness and diligence being applied to our actions.

Good environmental management will be reinforced through:

Continually identifying, assessing and controlling possible risks to the environment as a result of Edge Drilling (WA)'s activities.

The provision of information concerning environmental risks and the promotion, instruction, training and supervision of employees to ensure minimal impact on the environment.

## **Application**

The Managing Director of Edge Drilling (WA) is accountable for ensuring that this policy is implemented and that its effectiveness is reviewed annually.

This policy applies to all Edge Drilling (WA) sites and will be updated every two years. All Edge Drilling (WA)'s personnel and contractors in all areas of the Company's activities are responsible for applying the Environment Policy.
